64GB / SSD

4GB Memory

Intel N- 100 CPU

- **Free Space in the Front**
  Printer Space Avalable for small Stores
- **Security IC Reader or Dedicated External Bracket**
- **Front Flat Design**
  Sleek Front Display Design
- **15"WLED / Flat Touch**
- **H/W Operation Indicator**
- **Full Curved Design**
- **minimize External Cable Exposure Interference**
- **Dual Monitor Connector (Patent Confirmed)**
- **Internal Speakers**
- **I/O Port Cover**
- **SSD (Patent Application)**
- **Stand Cover**
- **PCABS+ Aluminum Heat Dissipation Frame**
  All-Aluminum Heat Dssionation Design
  Minimizes air vent shole

Provides the Greatest I/O Interface (6 Serial, 6USB)

- **TOP I/O Interfaces**
- **Bottom I/O Interfaces**

- Industys first multi-monitor support (HDMI, DVI, DisplayPort, VGA)
- All Serial Port Powered (Powered Serial)
- Supports 2 Kitchen Printers
- Supports Various Types of Serial Ports

For optimizing CPU heat dissipation
Aluminum Frame Structure

- 200k aluminum frame construction that covers the entire back
- fanless application even for high-end CPUAS (I3/I5/I7)
- Excellent anti-static effect
- Optimized CPU heat dissipation to ensure internal component lifespan

Power supply secure fastening structure

- Prevention of reverse current
  (fundamentally blocks the impact of the board)
- Strong Locking mechanism that does not come off easily
- Rotating power plug regardless of direction (connection protection)

With HW Operation Status Indicator

- Immediately Check through operation status LEDs
  for hardware abnormality (Disk fastening, abnormality, operating status etc.)
- (theree - state management) vs third - party (two-state management)

SSD Sliding Design Structure

- Easily replaceable with SSD Sliding Design Structure (takes 5 seconds)
- Prevent breakage due to reverse insertion
- Rail structure to absorb vibration
  (SSD protection even from micro vibrations)
